

Reminder information for patients taking VOLIBRIS

WHAT YOU NEED TO REMEMBER

Pregnancy

- Do not use VOLIBRIS if you are pregnant, are planning to become pregnant, or could become pregnant because you are not using reliable birth control.
- Taking VOLIBRIS during pregnancy may cause injury to your baby.
- If you are a woman who could become pregnant:
 - ✓ Your healthcare professional will ask you to take a pregnancy test before you start taking VOLIBRIS and regularly while you are taking VOLIBRIS.
 - ✓ Use a highly effective birth control method while taking VOLIBRIS.
 - ✓ If you discover that you are pregnant while taking VOLIBRIS, contact your healthcare professional as soon as possible.

Liver Function

- Do not use VOLIBRIS if you have liver disease or abnormal liver test results.
- VOLIBRIS can cause liver problems. Your healthcare professional will do blood tests before you start VOLIBRIS and regularly during treatment to check that your liver is working properly.

Please see the package insert for additional information.

For further information or if you have any side effects please consult your doctor, pharmacist or nurse. This includes any possible side effects not listed in the package insert.

Reporting of side effects: To report an adverse event, please call GSK Canada at 1-800-387-7374. Alternatively, adverse events may be reported to Health Canada by calling 1-866-234-2345 or visiting <https://www.canada.ca/drug-device-reporting>. By reporting side effects, you can help provide more information on the safety of this medicine.
